- » 541612 – Human Resources Consulting Services
- » 541990 – All Other Professional, Scientific, and Technical Services
- » 611420 – Computer Training

Our five core service offerings are built on demonstrated technical capabilities and a deep bench of cleared staff and trusted partners:

Cloud Professional Services

We have unparalleled success designing, building and migrating applications to private and hybrid clouds, on- and off-premises, including the classified AWS cloud. For one Intelligence agency, Quadrant migrated 25% of systems running in the C2S cloud, increasing uptime to 99.98% and reducing infrastructure costs by 25%.

Agile Application Development

We excel at delivering velocity-based increments that scale innovation to match changing and expanding requirements. Our agile development approach resulted in an 88% increase in throughput, 39% decrease in bugs and 35% decrease in completion time.

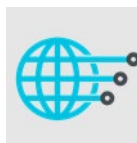

Data Science and Analytics

Our advanced data analysis and warehousing techniques provide agencies with mission, technology, and workforce insight with a single pane of glass view of 95 authoritative data sources. We ensure data is readily available to decisionmakers.

Mission Support Services

Our functional experts and dashboard visualization tools support mission performance and visibility. We are collaborative partners supporting business process improvement, strategic communications, and risk management.

Enterprise Software Solutions

We offer full lifecycle delivery of human capital management, learning management, financial systems, content management and workflows across the IC. We integrate technology to support ongoing work and adapt with changing requirements.
